DATE: _____ OPERATOR: _____

STAGE SECTION #'S.: _____

Rating, Corrective Action To Be:

A (adequate) **B** (complete before use) **C** (remove from service and replace)

ITEM's TO INSPECT	STAGE#	RATING	ITEM	STAGE#	RATING
Stages: platform legs – not bent or broken. Ensure the lock and springs are functional.			Risers: check the steps for cracks / bends and wear & tear. Check the attachment points for signs of wear		
Stages: Hinged leg braces – not bent or broken, ensure lock engages fully			Risers : leg spacers – inspect for signs of cracking & wear and tear		
Stages: Unit – to Unit clamps – checks for cracks / dents / wear and tear. Must lock and unlock fully			Risers: unit – to –unit clamps check for cracks / dents / wear & tear. Must fully lock and unlock.		
Stages: ensure all legs are fitted with a rubber plug or foot.			Risers: inspect the guardrails, look for cracks, breaks, bent bars, wear & tear		
Stages: surfacing – inspect the skid resistant surface. Look for signs of wear & tear or cracking along the surface.			Risers: ensure that all risers have both back rails and side rails. Back rails provide stability to the riser and without it they may collapse.		
Stages: Inspect all bolts and accessories and tighten any loose parts			Risers: ensure that they are **NOT** being used as stairs to access stages.		
Stages: leg pivot bracket – worn, cracked, bent.			Remarks:		
Drapery clips – look for cracks and wear and tear on the plastic clips					
Stairways : check steps for cracks / bends / wear and tear in the carpet					
Stairways : check handrails and bracing for cracks or dents, properly secured to the stairs					
Stairways: hook tube assembly – cracked bent, ensure it fully engages with stage.					
Stairways: inspect the wheels; look for cracked / broken rubber. Ensure they work properly			**Note:** **All worn, bent or broken parts must be replaced promptly and reported to Donna Hancox for servicing immediately.**		

****Forward all completed inspection reports to Donna Hancox.**
