TAE RYONG PARK ACADEMY

Proudly serving the Pembina Trails School Division for over 25 years!

We Transport !

Before & After School Program

a constructive alternative to traditional daycare!

The TRP Academy's Before & After School Program is the only program of its' kind in the city. We provide children with a fun and exciting before & after school experience as they learn martial arts skills and martial arts related values. Established in 1993, our programs have been designed to assist parents with instilling within their children the tools and skills needed to overcome their daily obstacles. Whether it be needing more focus at school, dealing with bullies, developing self-confidence, or just having too much energy, our program is here to help your child become a **SELF CONFIDENT LEADER** all while receiving the care which they deserve.

TRP Before School Program - A great way to start off your child's day. Drop them off at the Academy as early as 7am before heading to work. They will start their day off right through martial arts and exercise which will give them energy and focus to be productive at school. All this while providing the parents with a safe and reliable before school care.

TRP After School Program - A great way to end your child's day after hours of sitting at school. We will pick up your child from school and provide them with a daily exercise regime & martial arts training to help rejuvenate them & get them settle to face the rest of the day productively, all this before you are done work.

TRP Before & After School Program - Give your child the best of both worlds. Start their school day off right and end it even better.
