

TRANSPORTATION FOR OFF-SITE PROGRAMMING (FIELD TRIPS)

1. The first priority of the Transportation Department is to provide transportation to eligible students set out in Policy EEAA. The Transportation Department's second priority is to provide transportation to students in the following circumstances:
 - a. Where approved by the Director of Transportation, any student who is eligible for transportation support pursuant to Policy EEAA because the student is unable to walk safely to school due to a learning or physical disability may receive transportation support to and from work experience programs;
 - b. Where approved by the Secretary-Treasurer, any student in grades K-12 may be provided transportation support for regularly scheduled curricular activities held outside the student's home school;
 - c. Where approved by the Director of Transportation, transportation support may be provided for day trips for students which occur within 120 kilometres of the Administration Office at 181 Henlow Bay.
2. When field trips pursuant to paragraph No. 1(c) occur, the school principal shall designate a responsible adult, other than the school bus driver, who must be present on the bus at all times when the students are on the bus. This designated adult shall be responsible for the supervision of the students.
